PUBLIC NOTICE

Pursuant to the Clean Water Act Section 303(d), the State of Nevada is required to develop a list of impaired waterbodies that need additional work beyond existing controls to achieve or maintain water quality standards. The additional work includes the establishment of Total Maximum Daily Loads (TMDLs). The 303(d) List is the basis for targeting waterbodies for watershed-based solutions, and the TMDL process provides the analytical framework to develop solutions.

The **Draft Nevada's 2002 303(d) Impaired Waters List** is available for review at the Nevada Division of Environmental Protection, Bureau of Water Quality Planning (Room 105), 333 West Nye Lane in Carson City and in Las Vegas at the Nevada Division of Environmental Protection, 1771 East Flamingo Road, Suite 121A. Copies can also be obtained by contacting the Bureau of Water Quality Planning at the address given below or from NDEP's website at <http://ndep.state.nv.us/bwqp/303dlist.htm>. Written public comments should be submitted by September 1, 2002. Questions or comments should be directed to:
